

# CATCH the Virus Study – Instruction Manual

## Downloading and Installing

### Step 1:

Go to your phone's settings

Settings

### Step 2:

Click on Security

Security

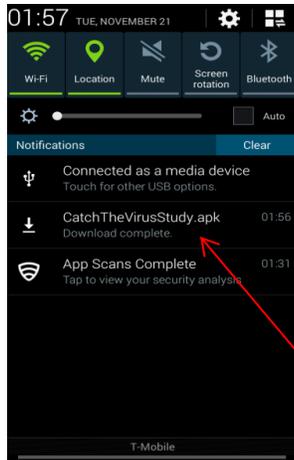

### Step 3:

Check the box next to "Unknown Sources: Allow installation of apps..."

Check this box

Click here to install the app

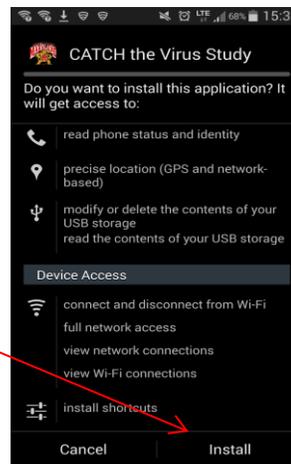

#### Step 4:

After clicking the given link to download the app, you can see the apk file in downloads

#### Step 5:

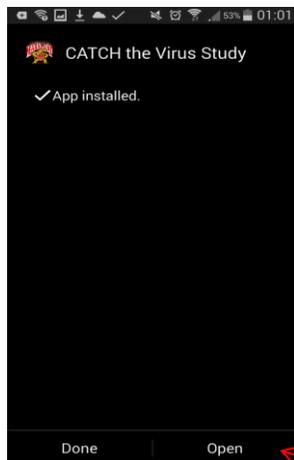

Click Install

Click to install the app on your phone

#### Step 6:

Once the app has installed, you can open it and continue to the set up.

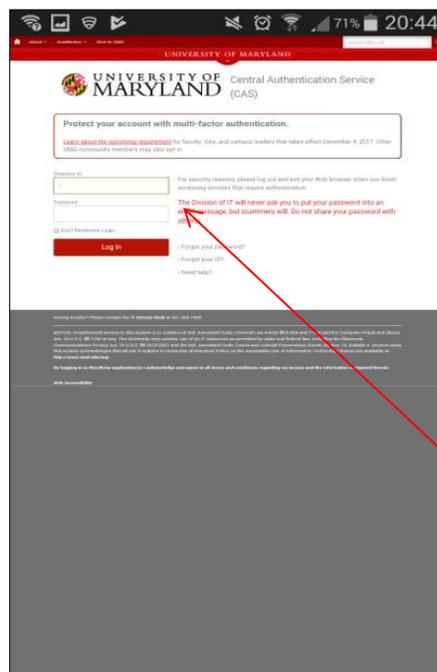

Click "Open" to proceed directly to the app

## Logging In

Upon opening the app there will be a screen with a link. Click the link to get to the login page.

Click this link to login

Enter your Directory ID and Directory Password, just as you would to log into any UMD application and click "Log In".

Enter your Directory ID and Password

## Entering Information

**You will be asked to enter some information which will be used to create a hashed identifier for you.**

Your data will be destroyed and will not be stored on the phone or our server. If the information entered is invalid you will be asked to see a project manager for verification.

Enter first and last name

Enter birth month/day

Enter 9 digit University ID Number

Once all the info is entered click "Submit Info"

## Consent Form

**After reading the consent form the "Agree" and "Disagree" buttons will appear.**

Clicking "Agree" will allow you to continue to the rest of the app.

Click Agree to continue

## Emailing PDF

**An email will be sent to the provided email with the Consent Form attached, so you will have a copy to keep.**

This email (and all other information provided) will now be destroyed.

Enter email address you would like the form sent to

Click to send the email

Click to continue to the rest of the app

Turn location sharing On and Off

## Location Manager

Turn location sharing off for amount of time entered

Number of times your location has been sent.

Reset the counter; the server will still keep track of the total amount

**As long as the button at the top is "On", your location will be shared with our server.**

"On" is the default setting for the app. To turn off tracking switch this button to "Off", snooze the location manager, or logout.

Click to view the Consent Form

Click if you need to reenter your information to create a new identifier for yourself

Logging out will turn off location sharing
